Advanced Furniture

ESTABLISHED IN 1979 ADVANCED FURNITURE IS A LEADING BRITISH MANUFACTURER OF EDUCATION & CONTRACT FURNITURE.

Our modern 100,000 sq ft facility has extensive manufacturing capacity Including:

Tube bending and fabrication,

Injection moulding,

Design and development

Powder coating.

Woodworking.

Upholstery,

Final assembly.
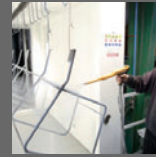

MADE IN BRITAIN

We are a proud British manufacturer employing around 85 local people.

Wherever possible we look to source material locally.

ACCREDITATION

Our products have been tested or comply with BS EN1729.

When designing new products we always take into consideration all the required European and British standards.

QMS® ISO 9001 : 2015 REGISTERED
Certificate No:47301999

QMS® ISO 14001 : 2015 REGISTERED
Certificate No:201532013

SERVICE

Advanced Furniture is committed to offer a market leading level of customer service and support.

Through our efficient order and manufacturing systems we aim to deliver goods in a speedy efficient time, we also keep large stocks for improved lead times.
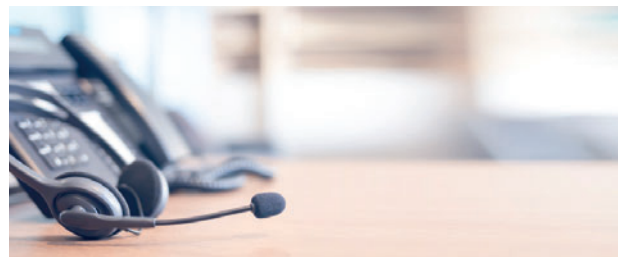

Manufactured in Great Britain

besa | BRITISH EDUCATIONAL SUPPLIERS ASSOCIATION

ENVIRONMENT

We have invested heavily in new modern machinery and vehicles. We recycle the majority of our waste.

Our factory has been designed to be energy efficient with LED lighting and extra insulation fitted reducing Carbon emmissions.

The factory roof now has 220kw of Solar power which will produce over 34% of our energy requirement, the system produces 170,000kw hours of low carbon clean power - this is enough to power 48 homes for one year.

In 2022 we were formally certified as a CARBON NEUTRAL company to the recognised standard PAS 2060:2014

CARBON NEUTRAL

As one of the leading manufacturers of school and educational furniture in the UK, we recognise our responsibilities to help protect the planet for future generations, we believe we are the first and only manufacturer in our sector to achieve carbon neutral status. We are totally committed to continually improving all environment procedures, we have reduced waste and reduced our CO2 emissions by over 200 tonnes per year. Achieving carbon neutral status isn't however the end of this journey merely the start, we will continue to improve and invest with the future aim of achieving net zero carbon.

CARBON OFFSET PROJECTS

As a business we have assessed our carbon footprint and are taking the next steps to reduce and offset our emissions to become net zero. Carbon offsetting plays the role of balancing out the emissions that have already been caused, by financially supporting projects around the world. These are the projects that we have invested in:

Methane Gas capture
Bulgaria

Reducing Deforestation
Cambodia

Renewable Energy
India

Chairs & Stools
EVO 4 Leg

Our newest In-house designed Chair is the EVO; a refreshing interpretation of the traditional Polypropylene one piece Shell.

The Four leg EVO chair stacks eight high and has passed EN1729 parts 1 & 2.

The Chair frame is available in 19mm and 25mm dia steel, the 25mm is also available with a Chrome levelling foot.

Cushioned Seat pad and Links can also be added as a further option.

Our ten shell colours and six frame colours ensure this chair is suitable for a wide variety of applications.

Tables
Height Adjustable Tables

Our Height Adjustable Tables have been developed to give you the opportunity to have a table that can be adjusted to a number of heights, making them appropriate for wheelchair users (DDA compliant).

Effective in all office environments including Educational workplaces.

Encourages good posture, increases blood flow and reduces lower back pain.

The 18mm or 25mm MDF laminated tops can be edged in either a clear lacquer, PU edge or 2mm PVC edging.

Leg frame available in Silver only.

Function Chairs
Aluminium

The 25mm Aluminium square section frame reduces the weight of the chair by over 25% compared to our steel framed chairs without any significant loss of strength. Standard Royal, Coronet and Consort models are offered on lightweight frames.

Code	Overall Height	Overall Width	Overall Depth	Seat Height	Seat Width	Seat Depth
RC1-AL	860mm	445mm	575mm	470mm	410mm	370mm

Conference/Visitor Chairs
Folding Chairs

The 182 Folding Chairs are offered in various colours.

Frames are made from 19mm diameter 1.5mm thick steel tube and rear and front legs have braces to provide stability for indoor and outdoor use.

Options of a seat and back pads for extra comfort, and linking can be added to the chair.

The 172 version has all the same qualities as the 182 but with the added comfort of a fan back.

182

172

The 2600 and 2700 folding chairs are comfortable and strong.

Available in a range of colour combinations these chairs can be easily folded and stacked on a range of trolleys.
