

PRODUCT DATA SHEET

Monza circular dining table 800mm in beech with central circular cutout and Ion power module in black

BUNDMDC-BION-K

Apart from suitable furniture with ergonomic chairs and a meeting table, a conference room should also be tech-friendly. An 80mm circular cutout is the ideal size for the cost-effective Ion power module supplied with the table. The power modules can then be dropped into position, with cables hard-wired into them which feed down through the hollow table column and under the base to the floor, creating new dimensions in dining area design with integrated power and data.

PRODUCT FEATURES

- Circular dining table with 800mm with 80mm circular central cutout for power units
- Available stocked in beech and white, with grey oak, oak and white tops made-to-order
- 25mm table tops available in beech, oak and white
- Ion in-surface power module 1 x UK sockets, 1 x USB Charger (type A) - available in black or white
- Power modules can be dropped into position in the cutout, with cables hardwired into them which feed down to the floor
- Flat circular base with hollow column available in brushed steel
